About This Game

Gigachess is a puzzle board hero defense. With your custom party of Knights, Rooks and Bishops, defend against the relentless waves of enemy Pawns running a blitz for the board's bottom. The seemingly unbreakable formations and constant downward march of your foe transform chess from slow burn to tactical rush in this deeply addictive single-player remix of turn-based strategy's ultimate grandmaster.

How long can you survive the Pawn onslaught?

GIGACHESS v1.22 FEATURES

- **Endless mode** with randomly generated waves and a choice of 4 difficulty levels for a perpetual Pawn menace (*now with Autosaves, Hyper states & Mutators!*)
- **Puzzle Attack mode** offering 40+ high-stakes, logic-testing stages to clear (*now with Easy Mode!*)

-
- **Knight's Dungeon mode** providing a 40-stage set of knight's tour-inspired puzzles to maze through
 - **Playable Tutorials & Tooltips** for a crash course in the mechanical intricacies & insight on demand
 - **Strategic Power-ups** that block advancing Pawns, plant explosive traps & *more!*
 - **Competitive Leaderboards** to rank your best played games against the world
 - **Achievements & Trading Cards** for the complete Steam experience

A single-player chess variant has never been more compelling. Get your head around **Gigachess** today!
